

U.S. DEBT TIME BOMB IS TICKING

By 2018 the U.S. Treasury conservatively estimates that our debt will hit 28 Trillion Dollars!
What does that mean to you? This means that *EVERYDAY* you keep your savings in dollar
denominated, paper assets the Federal Reserve is *DESTROYING YOUR MONEY*, your stocks,
savings accounts ... YOU RETIREMENT.

As the National Debt more than TRIPLLED in the last decade so has GOLD in value!

Gold RISES in VALUE with DEBT more than any other asset in the world!

So as the National Debt DOUBLES in the next 5 Years, where do YOU think your savings and
your retirement, your IRA should be ... GOLD.
